Dear Colleagues,

We are pleased to invite you to the 10th International Workshop on Neonatology to be held in Cagliari, Italy. This follows the success of the previous editions which saw the overall presence of more than 5000 participants. Workshop 10 is an important milestone and is accompanied by recognition by many national and international scientific societies, by the high patronage of the president of the Italian Republic and participation of UNICEF.

The title of the workshop “The last ten years, the next ten years in Neonatology” underscores this itinerary: a view towards the future of neonatology through debate and the contribution of the Workshop, but above all the trajectory that assistance, research and teaching will follow in the coming ten years. Some of the world’s most renowned specialists from forty different nations have been present in Cagliari in these years. They have created a network of scientific and human relations that have changed, improved and enriched us all. This year as well the proceedings of the Workshop will be published partly in “Clinica Chimica Acta”, and partly in the “Journal of Pediatric and Neonatal Individualized Medicine (JPNIIM). In past years the journals were “Medical and Surgical Pediatrics”, “Journal of Chemotherapy”, “Journal of Maternal Fetal Neonatal Medicine” and JPNI. Over the years, the Workshop has made its impression on science and has promoted a lively discussion in an always serene and extremely constructive atmosphere.

This year’s meeting, organized with the patronage of the Società Italiana di Neonatologia, the Società Italiana di Pediatria, the European Neonatal and Perinatal Societies, the Union of Mediterranean Neonatal Societies and lastly by the International Federation of Clinical Chemistry (IFCC) and Laboratory Medicine. The meeting is dedicated to neonatologists, pediatricians, obstetricians, perinatologists, laboratory researchers, pediatric cardiologists and all those who work with the newborn. Besides the traditional appointment of the International Workshop, there will be six satellite meetings: a course on neonatal pain management; the ninth edition of the Terra di Sardegna Meeting on Neonatological Nursing” with the participation of nurses from eleven neonatal intensive care units; the first meeting titled “New Frontiers in Preventive and Social Pediatrics” that focuses attention on the brain and cranial-facial anomalies; the 3rd International Conference in New Trends in Neonatology dealing with neonatal asphyxia and medical humanities; the 4th International Conference on Neonatal and Pediatric Laboratory Medicine where the theme will be how to reduce infantile mortality; finally, the 1st International Course on Perinatal Pathology, where perinatologists and pathologists will come together to address systematically all the important aspects of neonatology.

Great attention will be devoted to young specialists: in the last few years the events have been extended through presentation of some eighty selected posters for each meeting and numerous prizes of 500 euros have been awarded for the best contributions.

We look forward to welcoming you to this traditional appointment to discuss topics of the present and keep us up to date on the latest results, both in research and clinical neonatology.

Dear Colleagues,

Cari Colleghi,

abbiamo il piacere di invitarvi al 10th International Workshop on Neonatology che si terrà a Cagliari e che fa seguito al successo delle precedenti edizioni, che hanno visto complessivamente la presenza di oltre 5000 partecipanti. Si tratta, quello dei dieci anni, di un traguardo importante che è accompagnato dal riconoscimento di numerose Società Scientifiche Nazionali e Internazionali, dall’Alto Patronato del Presidente della Repubblica Italiana e dalla partecipazione dell’UNICEF.

Il significato del titolo del convegno “The last ten years, the next ten years in Neonatology” vuole rappresentare questo itinerario: uno sguardo rivolto al cammino della neonatologia, anche attraverso il dibattito e il contributo del Workshop, ma soprattutto la traiettoria che l’assistenza, la ricerca e la didattica verosimilmente percorreranno nel prossimo decennio. Alcuni tra i migliori specialisti a livello mondiale provenienti da una quarantina di nazioni sono stati presenti a Cagliari in questi anni e hanno creato una rete di rapporti scientifici e umani che ci ha cambiato, migliorato e arricchito. Anche quest’anno gli Atti del Workshop saranno pubblicati in parte su “Clinica Chimica Acta”, in parte sul “Journal of Pediatric and Neonatal Individualized Medicine” (JPNIIM). Negli anni precedenti le riviste sono state “Medical and Surgical Pediatrics”, “Journal of Chemotherapy”, “Journal of Maternal Fetal Neonatal Medicine” e JPNI. Nel corso degli anni il convegno ha lasciato una traccia scientifica che ha contribuito ad una discussione vivace in un’atmosfera sempre serena ed estremamente costruttiva.

Grande attenzione è dedicata ai giovani: negli ultimi anni la discussione è stata ampliata anche attraverso il dibattito e il contributo del Workshop, ma soprattutto la traiettoria che seguirà il lungo cammino che ci ha cambiato, migliorato e arricchito. Anche quest’anno gli Atti del Workshop saranno pubblicati in parte su “Clinica Chimica Acta”, in parte sul “Journal of Pediatric and Neonatal Individualized Medicine” (JPNIIM). Nel corso degli anni il convegno ha lasciato una traccia scientifica che ha contribuito ad una discussione vivace in un’atmosfera sempre serena ed estremamente costruttiva.

I Presidenti:

Vassilios Fanos, Michele Mussap, Gavino Faa, Peter Van Eyken, Apostolos Papageorgiou
