Coordinator of the Summer School

Giorgio Giacinto
University of Cagliari

Full Professor of Computer Engineering at the University of Cagliari, Italy. His research interests are in the field of machine learning for cybersecurity, such as malware analysis and detection, web application security, malicious behaviour detection, phishing detection. Coordinator of the MSc Programme in Computer Engineering, Cybersecurity and Artificial Intelligence at the University of Cagliari. He also serves as the International student mobility coordinator for the Faculty of Engineering and Architecture. Within the National Consortium of Universities for Informatics (CINI), he is a member of management board of the Cybersecurity National Lab, and a member of management board of the Artificial Intelligence and Intelligent Systems Lab. He is also an active member of the Working Groups WG5 (Education, Training, Awareness, Cyber Ranges) and WG6 (Scientific, Research and Innovation Agenda Working Group) of the European Cybersecurity Organization (ECSO), as a representative of the CINI consortium. Program or Organizing Committee member in many international conferences and workshops on cybersecurity and machine learning. Author of more than 180 scientific papers in international journals and conferences. Fellow of the IAPR and a senior member of both the IEEE and ACM.
Lecturers from EDUC partner universities

**Pierre Alain** from ENSSAT, Rennes 1

Pierre Alain is an associate researcher in the Expression and Shaman teams of IRISA and has been responsible for more than 10 years for the apprenticeship degree in Computer Science at Ensat. He is now responsible for the Engineer Ensat/M2 EUR CyberSchool double degree at Ensat. He recently joined the core team of the mirageOS library operating system.

**Agáta Kružíková** from University of Masaryk

Agáta Kružíková is a PhD candidate in the Centre for Research on Cryptography and Security at the Faculty of Informatics at Masaryk University. She researches authentication from the usable security point of view. She focuses on both end-users and IT professionals in the context of usable and secure authentication.

**Petr Svenda** from University of Masaryk

Computer security researcher, lecturer and active member of the Centre for Research on Cryptography and Security at Masaryk University in Brno, Czech Republic. Main research areas are cryptographic protocols for limited devices, analysis and use of secure hardware and randomness assessment and entropy extraction. Enjoying programming, especially in area of security-sensitive applications.

Local Public Transport

As you will stay in Cagliari for about 2 weeks, we recommend to buy 2 weekly tickets at the cost of € 12,00 per ticket.

The weekly ticket offers unlimited travel throughout the Metropolitan area network, including Metrocagliari service, for 7 days from the ticket validation time. Remember to validate the ticket on board the first time you take the bus.

You can buy your tickets at the nearest CTM ticket shop.

The nearest CTM shop to your hotel is in Piazza Matteotti, 3 minutes walking distance from Hotel Italia.

Please see shop’s opening times below:

</tr>
</tbody>
</table>

You can buy your tickets at the nearest CTM ticket shop.

The ticket machine outside the shop is open 24/7 so you can buy the ticket on Sunday upon your arrival.

Alternatively, tickets are also available in selected shops that show this image at the door.

The best and quickest way to purchase the weekly tickets is by downloading the App Busfinder, available for Android, iOS and Huawei.

The app CTM busfinder can be downloaded in English and it is very easy to use. Once you have entered personal data for the subscription, select Tickets>Buy, then choose the Weekly ticket option and proceed to the payment.
29 August

Welcome Dinner

20:00

«Antica Hostaria» Restaurant
Via Cavour, 60
29 August, h. 15:30 - 19.30

**Lecture on the town of Cagliari and City Tour**

**15:30 - 16.30**

The lecture illustrates the historical-architectural and urbanistic events of the city of Cagliari, from the late Middle Ages to the twentieth century, the evolution of its ancient districts and expansion plans drawn up since the second half of the nineteenth century. Through the projection of images, it will be shown how much remains in today's buildings of the various historical eras.

*Marcello Schirru, University of Cagliari*

**16:30 - 19:30**

3 hour Walking Tour of Cagliari's two most picturesque historic quarters: Castello and Marina

The tour will take you first of all to the 'old' Cagliari: the picturesque CASTELLO quarter, founded by the Pisans in the Middle Ages, which stands in a dominating position from where you can enjoy an amazing panorama of the entire city. Fortifications such as the towers, city walls, bastions, as well as churches and old noble residences will let you experience the immense historical, artistic and architectural heritage of ancient Casteddu.

We will continue our guided tour of LA MARINA, Cagliari's liveliest, most sparkling and dynamic district. La Marina is cosmopolitan and multicultural, and the shopping area is full of shops, art galleries, jewellers, small craft workshops, restaurants and typical trattorias.
